

## **Steve Farrow**

I've been married to my wife Nancy for 58 years and have two married daughters that live in SLO and four grandchildren. We moved to SLO in May of this year having lived in Claremont, CA for the past 46 years. My entire career has been in health care products in sales, marketing, and product development. In 1981 I founded Triad Medical, Inc. which was a sales and distribution company serving hospital and home care/infusion pharmacies with offices in California, New York, Atlanta and Dallas. In addition, we designed and installed equipment for pharmacies in both the hospital and home care/infusion market. I retired in 2017.
